

CodeX (CDX)
CONTRACT & INFRASTRUCTURE REGISTER

Ethereum Mainnet - Canonical Production Address Record
Version 1.2 - 12 September 2026

Evidence basis: Addresses and source statuses in this register are transcribed from supplied CodeX production deployment/read-back records. This register is a technical record, not an independent audit opinion or live explorer certification.

Corporate history: Coded House has an earlier Pakistan FBR business presence dating from July 2024. Coded House LLC is the later Wyoming U.S. legal entity, with portal formation date 24 August 2026 and Good Standing Certificate issued 27 August 2026. This September 2026 register is published under Coded House LLC. The two registrations are kept legally distinct.

1. Network and System Identity

Field	Value
Project / token	CodeX (CDX)
Network	Ethereum Mainnet
Chain ID	1
Token standard	ERC-20 with permissioned / protocol controls
Official token proxy	0x27DdDb492c9e593472D28722ED762c04f3d7221f
Reserve asset / unit	EUR
Reference model	1 CDX = 1 EUR reference value within the documented reserve-control model
Administrative governance	Safe multisig - 3 of 5 owners

2. Production Contract Registry

3. Module Purpose Register

Module	Function in CodeX architecture
CodeXTokenV1 proxy	ERC-20 token / protocol entry point
ReserveOracleV1 proxy	Versioned reserve snapshots and reserve state
ChainlinkReserveAdapter proxy	Receives/forwards approved reserve payloads
ChainlinkRequestManager proxy	Tracks reserve publication requests/responses
OracleRegistry proxy	Oracle registration / active oracle linkage
FundRegistry proxy	Fund registration and configuration
ReserveManager proxy	Fund reserve / locked reserve accounting
InvestorRegistry proxy	Permissioned investor / wallet registry
ComplianceManager proxy	Compliance-gated transfer / issuance controls
AuditManager proxy	Protocol audit/evidence control module
SignerRegistry proxy	Authorized signer registration
RedemptionManager proxy	Controlled redemption workflow module
SettlementManager proxy	Controlled settlement workflow module
CodeXTokenMintLogic	Mint authorization logic
CodeXTokenRedemptionLogic	Token redemption logic
CodeXProxyAdmin proxy	Proxy administration component

4. Governance and Operational Accounts

Role	Address	Status / config	Purpose
Safe multisig admin	0xA86FC207De7EDb198a53C7cca179d75Bbe ff5C28	3 of 5	Administrative governance: role grants, upgrades and fund registration
Authorized EIP-712 signer	0x0CD6265c14049dda2E2a46CC847045c1EB9 b9F5F	Recorded	Reserve snapshot and mint authorization signer
Chainlink node	0xeFDD19064f929627811DFFc7C0bfb75fCd49 cDBc	Recorded	Reserve publication job execution
Fund Manager	0xe910F949fb2f592b6FF1906Cf663D7173598 3c95	Recorded	Fund registration, reserve and request management roles
Deployer EOA	0x16489AD4f8a0F360A181FEC55877f57C7091 d475	Recorded	Deployment account in supplied production records

5. Supplied Runtime Linking / Role Evidence

- CodeXToken protocol links for reserveOracle, reserveManager, auditManager, fundRegistry, investorRegistry, complianceManager, oracleRegistry, signerRegistry, redemptionManager, settlementManager, Chainlink adapter/request manager, mint logic and redemption logic were reported as OK in the supplied production read-back records.
- Token was reported with RESERVE_MANAGER_ROLE on ReserveManager, PROTOCOL_ROLE on AuditManager, REDEMPTION_MANAGER_ROLE on RedemptionManager, and SETTLEMENT_MANAGER_ROLE on SettlementManager.
- Adapter / Chainlink Request Manager role linkage and Fund Manager roles for fund, reserve and request management were reported as OK.
- These statuses describe the supplied production evidence set; they are not represented as a new independent 12 September blockchain audit.

6. Reserve Publication Infrastructure

Control	Canonical evidence
Authenticated reserve source	Authenticated Bank API workflow; credentials confidential
Internal service reference	m1-corebanking - internal application/service name only, not a claim of access to a bank internal core-banking platform
Private ledger	Hyperledger Fabric channel m1-channel; chaincode m1cc; version 1; sequence 6
